ABSTRACT

This 1984 survey was conducted to obtain data on the characteristics of public school students in the 50 states and the District of Columbia. The 3,510 school districts selected to participate were statistically sampled from approximately 16,000 U.S. school districts, and the schools within the selected districts were subsampled: (1) all special education, vocational, and disciplinary schools, and (2) a statistical sample of remaining schools. Two lines of data are presented for each state: actual reported, computed by aggregating the district level from each state, and projected data, computed from the reported data using sampling weights for each district. The data are summarized by Office of Civil Rights (OCR) client populations--American Indian or Alaskan Native; Asian or Pacific Islander; Hispanic; Black, not of Hispanic origin; White, not of Hispanic origin; male; and female. Three types of reports are included: (1) National and State Summary of Projected Data, by state; (2) National and State Summary of Reported Data, by state; and (3) District Summary Report, by state. Each report has: (1) Identification Data (state and name and location of school district); (2) Summary Data--by individual racial/ethnic categories, total, and by sex (except for bilingual data) for the following areas: enrollment; bilingual (in need of language assistance programs); bilingual (enrolled in language assistance programs); gifted/talented; corporal punishment; suspensions; educable mentally retarded; trainable mentally retarded; speech impaired; seriously emotionally disturbed; specific learning disability; and graduates; (3) Special Education Data is subdivided by children: awaiting initial evaluation; identified as requiring special education; in special education programs in school district; in special education program in nondistrict facility; part-time; full-time; (4) Supplemental Data reports: (1) Limited English Proficiency (LEP) students identified as in need of language assistance but not

enrolled in such programs, and (2) students in selected courses (home economics, industrial arts, and physical education), by sex in single-sex and mixed-sex classes. (AA)

Appendix A - Fall 1984 Elementary and Secondary Schools Civil Rights Survey:
Form ED101 and Form ED102

USER'S GUIDE FOR DISTRICT SUMMARIES

I. Introduction

The Fall 1984 Elementary and Secondary Schools (E&S) Civil Rights Survey was conducted to obtain data on the characteristics of students enrolled in public schools throughout the nation. The information is required by the Office for Civil Rights (OCR) to fulfill its responsibilities under Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973.

The survey instrument was comprised of two forms: an ED 101 form completed by school districts and an ED 102 form completed by individual schools. Copies of the forms are presented in Appendix A. The districts selected to participate in the survey were statistically sampled from a universe of approximately 16,000 districts. The sample selection process was designed to meet the objectives of the survey and to provide statistical accuracy and projectability of the data.

Included in this report are district summary data for each sampled district in the survey, as well as state and national summaries of the data collected. State and national summary tables are presented using projected and reported data. In a separate report entitled School Summary: List of Schools by District, school level data is presented for each surveyed district.

Every effort has been made to analyze and present the survey data in a useful manner. If there are questions regarding this report, or if there are comments which might be helpful for future reports, please contact the ED/OCR Surveys Branch.

II. Description of the Survey

The Office for Civil Rights (OCR) Elementary and Secondary Schools Civil Rights Survey has been conducted on a national basis from the 1967-68 school year through the 1984-85 school year. The survey instrument is comprised of two forms: a district level form (ED101) and a school level form (ED102). Each district selected to participate in the survey completes an ED101 form; and generally, every school within selected districts completes an ED102 form. The survey forms reflect the important issues and direct responsibilities of OCR.

For the 1984 Survey, the major design consideration of the survey was the sampling process used to select districts to be surveyed. A secondary design consideration was the subsampling of schools within large districts, i.e. the schools required to complete an ED102 form in large districts could themselves be a sample of schools within the district. A detailed discussion of the 1984 survey design follows.

The universe, from which the districts were to be sampled, was defined to be all public schools in the nation (fifty states and the District of Columbia). A universe file of all school districts was constructed using data from previous OCR E&S surveys and from the district universe file maintained by the National Center for Education Statistics (NCES).

In order to minimize costs and to reduce respondent burden, a sampling methodology was employed to select districts for inclusion in the survey. The survey design divided the universe of districts into two subuniverses and applied a different sampling approach to each subuniverse. Specifically, the districts with an enrollment of 300 or more students were placed in one group and all other districts in a second group.

The first subuniverse, which consisted of districts with an enrollment of 300 or more, contained 11,450 districts with 76,971 schools and total enrollment of 39,897,451 students. In sampling from this subuniverse, the basic objective was to select a minimum number of districts that met a set of selection factors that represented the criteria which were to be satisfied to meet the needs of OCR.

From the first subuniverse, there were 2,250 districts selected which contained 32,495 schools and 19,560,037 students. An additional 1,260 districts were chosen at random from the second subuniverse of districts, the "under 300" subuniverse. These 1,260 districts represented 1,437 schools and 155,833 students.

The combination of sampling from the two subuniverses resulted in 3,510 districts being surveyed representing 33,932 schools. The inverse of the probability associated with each district's selection in the sampling process was used as the district's weight in the survey, a value used for projection purposes. Since the set of districts which responded to the survey differed from the set of districts that were initially selected by the sampling process, it became necessary at the end of the survey to "reweight" the sampled districts. The original weights were adjusted upwards by a small value to compensate for the nonresponding or otherwise missing districts.

The second design consideration associated with the 1984 E&S Survey was the introduction of the concept of subsampling schools within selected districts. Normally a district selected for the survey must complete and submit an ED102 form for each school within the district. For the 1984 E&S Survey, districts with more than 100 schools were allowed to subsample schools, as follows:

1. Special schools (i.e. special education schools, vocational schools, disciplinary schools, etc.) were specifically included in the subsample and had to complete the ED102 forms.
2. The remaining schools in the district were to be listed in alphabetical order and a selection was to be made in a specified periodic order (e.g. every tenth school) until 100 schools had been selected.

More than forty of the districts selected to participate in the 1984 E&S Survey were eligible to subsample schools within their district; however, only five elected to subsample, i.e. Hawaii, Chicago, Prince Georges County, Memphis City, and Fairfax County.

Since complete district level data for the five subsampling districts was unavailable by direct aggregation of the school records within the district, the following methodology was used to project district level values for the subsampling districts:

1. The special schools, which were required to be sampled, were identified and not included in the weighting calculations.
2. The total number of regular schools in the district in 1984 was determined; adjustments were made for new or closed schools, if the information was provided by the district.
3. The weighting factor was calculated to be the total number of actual regular schools divided by the number of subsampled regular schools.
4. The district level data was then estimated by multiplying the regular schools' reported data by the weighting factor and adding the special school data to this weighted regular school data.

In the district summary tables described below, the data presented for the subsampling districts represents the data reported by the subsample of schools, projected up to the district level.

The 1984 survey data is projectable to the state, regional or national level. Projections are to the universe of all public school districts. The survey data was projected by first multiplying the school or district level data elements by the corresponding district's sampling weight and then aggregating to the required state or national level. Reported data from districts whose schools were subsampled were first weighted by the technique described above.

The chart below compares the reported data to the projected data for the entire nation. The 1984 estimated universe data, from which the 1984 survey sample was drawn, is also presented as evidence of the validity of the projection of the survey data.

Data Element	Reported	Projected	Universe
Number of districts	3,312	16,056	15,950
Number of schools	33,132	81,242	82,185
Total Enrollment	19,351,480	39,451,897	40,455,992

III. Editing and Processing of Data

All district and school data submitted in the survey were subjected to careful manual and computer checks. For instance, within each school the enrollments in individual racial/ethnic categories were summed to see if they agreed with the total enrollment reported. Similarly, the sum of male and female enrollments was checked to see if it agreed with the total enrollment reported.

All incorrect or suspicious data entries were brought to the attention of officials from the school district or state supplying the data, and upon receipt, corrected data were entered into the revised file. The cooperation received from respondents in all states made possible the elimination of practically all errors or gaps in the data file. Although some errors are known to remain in the file, the file provides an excellent representation of the state of affairs in the surveyed districts regarding the matters on which the survey sought data.

IV. Description of the Document

This document contains three types of reports:

- National and State Summary of Projected Data - A summary report displaying aggregate data statistically projected to the national and state levels (states in alphabetic order) using the data reported by those districts responding to the survey.
- National and State Summary of Reported Data - A summary report displaying aggregate data at the national and state levels for those districts responding to the survey.
- District Summary Report - A district summary report displaying, for each district responding to the survey, data aggregated to the district level. The district summary reports are presented by state and by alphabetic order based on the name of the district (corresponding roughly with the district OE codes).

Throughout the reports which follow, survey data is summarized by OCR client populations, which include:

- AM IND: American Indian or Alaskan Native
- ASIAN: Asian or Pacific Islander
- HISP: Hispanic
- BLACK: Black, not of Hispanic origin
- MINORITY: Total of above four categories
- WHITE: White, not of Hispanic origin
- TOTAL: Total of racial/ethnic categories
- MALE
- FEMALE

Definitions of these client populations are given on the survey forms (Appendix A).

The file from which the tables were generated contains the most accurate data obtainable from the districts. However, districts sometimes initially submitted incomplete, inaccurate, or inconsistent data. Despite a major effort to secure, from the districts, additional information and/or corrections, some errors remain. In particular, some districts reported totals which did not agree with computed totals by race/ethnicity and/or sex. Throughout the following tables, computed totals, rather than reported totals, are presented. This leads to an inconsistency in tables which present data by both race/ethnicity and sex. In these tables, the total is the computed sum of the data by race/ethnicity and may not reflect the total by sex.

The format of the data presented in the three reports is very similar and will be described in the following sections:

- A. Identification Data Section
- B. Summary Data Section
- C. Special Education Data Section
- D. Supplemental Data Section - District Summary Report.

A. Identification Data Section

In this section, information describing the unit of analysis is displayed.

For the National and State Summary Report (projected and reported), the name of the state or the label "Nation" is provided. The number of districts and schools included in the survey are also presented. For the projected summary report, the aggregate data displayed are sample data projected to the universe of all districts; whereas, the reported summary report displays the summation of the sample data.

For the District Summary Report the following information is provided for each district in the identification section:

- District name and OE code
- District address (street, city, state and zip code)
- Number of schools in the district.

For each of the five districts that subsampled schools, an indication is given under the OE code that the district subsampled schools.

B. Summary Data Section

This section provides data from items for which racial/ethnic and sex breakdowns are available.

The summary data are shown by racial/ethnic categories, total, and by sex for the following items:

- **ENROLLMENT:** Pupils in membership on or about October 1, 1984 (ED 102, Item 5a).
- **BILINGUAL-NEED OF:** Pupils identified as having limited English proficiency and in need of language assistance programs (ED 102, Item 5b1).
- **BILINGUAL-ENROLLED:** Pupils enrolled in a program of language assistance, such as a bilingual education program, English-as-a-Second-Language, or High Intensity Language Training (ED 102, Item 5b2).
- **GIFTED/TALENTED:** Pupils enrolled in programs for the gifted/talented (ED 102, Item 5c)
- **CORPORAL PUNISHMENT:** Pupils who received corporal punishment during the 1983-84 school year (ED 102, Item 5d)
- **SUSPENSIONS:** Pupils suspended for at least one day during the 1983-84 school year (ED 102, Item 5e)
- **EDUCABLE MENT RTRED:** Pupils enrolled in programs for the educable mentally retarded (ED 102, Item 7a)
- **TRAINABLE MEN RTRED:** Pupils enrolled in programs for the trainable mentally retarded (ED 102, Item 7b)
- **SPEECH IMPAIRED:** Pupils enrolled in programs for the speech impaired (ED 102, Item 7e)
- **SER EMOTION DISTURB:** Pupils enrolled in programs for the seriously emotionally disturbed (ED 102, Item 7g)
- **SPECIFIC LEARN DIS:** Pupils enrolled in programs for a specific learning disability (ED 102, Item 7j)
- **GRADUATES:** Pupils who received a regular high school diploma during the 1983-84 school year (ED 102, Item 9).

The National and State Summary reports present an additional racial/ethnic category: total minority. Blanks appear where data was not collected; specifically, male and female bilingual data.

C. Special Education Data Section

This section provides data related to special education and includes six data items:

- WAIT EVAL: Children referred for initial evaluation to determine if they require special education but have not yet been evaluated (ED 101, Item 5a)
- IDENTIFIED: Children identified as requiring special education (ED 101, Item 5b)
- REC DISTRICT: Children requiring special education and placed in special education programs in the school district (ED 101, Item 5c)
- REC NON-DIST: Children requiring special education and placed in special education programs in a nondistrict facility (ED 101, Item 5d).
- PART TIME: Pupils who spend only a portion of the day (part time) in special education programs (ED 102, Item 7a-7l).
- FULL TIME: Pupils who spend a full school day (full time) in special education programs (ED 102, Item 7a-7l).

D. Supplemental Data Section - District Summary Report

For the District Summary Report, two additional types of data are displayed:

1. Limited English Proficiency Data

A single data item originating from the Individual School Report Survey Form (ED 102) is reported in this category:

- LEP NOT SERVED: The number of pupils identified as being in need of language assistance less the number of pupils enrolled in language assistance programs (ED 102, Item 5b1 and 5b2).

2. Pupils in Selected Courses

These data items display enrollment by sex in single-sex classes and mixed-sex classes for the following subjects in grades 7 through 9:

- HOMEC: Home economics (ED 102, Item 8.a)
- INART: Industrial arts (ED 102, Item 8.b)
- PHYED: Physical education (ED 102, Item 8.c).

For each of the above named courses, four data items are presented to tabulate the course enrollment by the male/female composition of the classes:

- ALL-MALE: The number of pupils in all male classes.
- ALL-FEM: The number of pupils in all female classes.
- MIX-MALE: The number of male pupils in mixed classes.
- MIX-FEM: The number of female pupils in mixed classes.

Appendix A

Fall 1984 Elementary and Secondary Schools Civil Rights Survey

Form ED101 and Form ED102

REPORTING REQUIREMENT.

This report is required by the U.S. Department of Education pursuant to Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972 and under Section 104 of the Rehabilitation Act of 1973. Section 100.6(b) of ED Regulations (34CFR 100.6(b)) issued to carry out the purposes of Title VI of the Civil Rights Act of 1964, provides:

Compliance Reports. Each recipient shall keep such records and submit to the responsible Department official or his designee timely complete and accurate compliance reports at such times, and in such form, and containing such information, as the responsible Department official or his designee may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this regulation.

Form Approved:
OMB No. 1870-0500
Expiration 9/85

Fall 1984
Elementary and Secondary School Civil Rights Survey
SCHOOL SYSTEM SUMMARY REPORT: ED101
Office for Civil Rights
U.S. Department of Education
Washington, DC 20202-2516
Due December 15, 1984

GENERAL INSTRUCTIONS

- Please use a typewriter or print legibly in ink.
- Pupil membership should be reported as of October 1, 1984, or the nearest convenient date prior to December 15, 1984.
- If the answer for a given item is "none", enter "0" in the appropriate space.
- If a particular item is not applicable in your case, enter "N/A".
- Copies of this ED101 form and all ED102 forms for the district must be retained in the district office for two years from the due date (until December 15, 1986).

DEFINITION

SCHOOL. For the purpose of this report, a school is a division of the school system consisting of elementary and/or secondary (or equivalent) students comprising one or more grade groups or other identifiable groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same plant. Count only units administered by a principal or equivalent.

INSTRUCTIONS FOR COMPLETING FORM ED101

Questions 1, 2, 3 Self-explanatory

Question 4. COURT ORDER STATUS If you are uncertain as to whether or not your school system is currently subject to a Federal or State court order requiring your system to develop or implement a plan for desegregation, you should contact the Clerk of the appropriate Federal or State court to obtain this information.

Question 5. SPECIAL EDUCATION For the purposes of this survey, a special education pupil is (a) a student whose residence is within the geographic area served by the school system, (b) who is within the age group served by the school system, and (c) who has one or more of the following handicapping conditions: educational retardation, trainable mental retardation, hearing impairment, visual impairment, speech impairment, orthopedic impairment, other health impairments such as limited strength, vitality or alertness due to a heart condition, tuberculosis, rheumatic fever, etc., serious emotional disturbance and/or a specific learning disability. Exclude children who are socially maladjusted or gifted/talented. Report on the basis of what is known to the school system at the time of reporting. Do not include children who are residents of other school districts, even if they are being served by your district.

- a. How many children are awaiting initial evaluation? Number of pupils who have been referred for evaluation (to determine if they require special education) for the first time and who have not yet been evaluated. This number is exclusive of those reported in b. below. It does not include children being re-evaluated.
- b. How many children have been identified as needing special education services? Number of children who have been evaluated as needing any type of special education program, either full-time or part-time.
- c. How many children are placed in special education programs in this district? Include only those children who were identified in b. above. Combine the children being served on full-time and part-time bases. Include all children in the district who are presently enrolled in special education, whether they were evaluated in the past or for the first time this school year.
- d. How many children are placed in special education programs in a nondistrict facility? Number of children evaluated as requiring special education and receiving special education services in a facility not operated by this school system. Combine children being served on a full-time and part-time bases.

CERTIFICATION After you have reviewed the data submitted on the ED101 form and on the ED102 forms to be attached for each school, please sign the certification and enter the telephone number to be used in the event that questions arise regarding this report.

Elementary and Secondary School Civil Rights Survey
INDIVIDUAL SCHOOL REPORT: ED102

Office for Civil Rights
U.S. Department of Education
Washington, DC 20202-2516

Due December 15, 1984

GENERAL INSTRUCTIONS

- This form is to be completed for each individual school in the district.
- Please use a typewriter or print legibly in ink.
- Pupil membership should be reported as of October 1, 1984, or the nearest convenient date prior to December 15, 1984.
- If the answer for a given item is "none" or if all elements of a matrix are "0", enter "0" in the appropriate space or in the total column only (in the case of a matrix). If an item is not applicable, enter "N/A" (not applicable) in the appropriate space or in the total column only (in the case of a matrix).
- A copy of this form must be retained at the district office for two years from due date (until December 15, 1986).

DEFINITIONS

SCHOOL For the purpose of this report, a school is a division of the school system consisting of elementary and/or secondary (or equivalent) students, comprising one or more grade groups or other identifiable groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary schools are housed in the same plant. Count only units administered by a principal or equivalent.

RACIAL/ETHNIC CATEGORIES Racial/ethnic designations, as used by the U.S. Department of Education, Office for Civil Rights, do NOT denote scientific definitions of anthropological origins. For the purposes of this report, a pupil may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging to. However, no person should be counted in more than one racial/ethnic category. The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data.

- American Indian or Alaskan Native: A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.
- Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific Islands, or the Indian subcontinent. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.
- Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin—regardless of race.
- Black (Not of Hispanic Origin): A person having origins in any of the Black racial groups of Africa.
- White (Not of Hispanic Origin): A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

PROGRAMS FOR THE GIFTED OR TALENTED Those programs designed for pupils who by virtue of outstanding abilities are capable of high performance and who require differentiated educational programs and/or services beyond those normally provided by the regular school program. Such pupils include those with demonstrated achievement and/or potential ability in any of the following areas singly or in combination: 1) general intellectual ability, 2) specific academic aptitude, 3) creative or productive thinking, 4) leadership ability, 5) visual or performing arts, 6) psychomotor abilities.

HANDICAPPED PUPILS (STUDENTS, CHILDREN) and SPECIAL EDUCATION PUPILS For purposes of this report the terms are synonymous. A special education pupil is one with one or more of the handicapping conditions defined below and who has been evaluated as requiring special educational services because of this (these) condition(s).

HANDICAPPING CONDITIONS The following definitions are to be used in preparing this report:

- Educable mentally retarded (or handicapped)—a condition of mental retardation which includes pupils who are educable in the academic, social, and occupational areas even though moderate supervision may be necessary.
- Trainable mentally retarded (or handicapped)—a condition of mental retardation which includes pupils who are capable of only very limited meaningful achievement in the traditional basic academic skills but who are capable of profiting from programs of training in self-care and simple job or vocational skills.
- Hard of hearing—a hearing impairment, whether permanent or fluctuating, which adversely affects a child's educational performance but which is not included under the definition of "deaf" in this section.
- Deaf—a hearing impairment which is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, which adversely affects educational performance.
- Speech impaired—a communication disorder, such as stuttering, impaired articulation, a language impairment, or a voice impairment, which adversely affects a child's educational performance.
- Visually handicapped—a visual impairment which, even with correction, adversely affects a child's educational performance. The term includes both partially seeing and blind children.
- Seriously emotionally disturbed—a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree, which adversely affects educational performance: an inability to learn which cannot be explained by intellectual, sensory, or health factors; an inability to build or maintain satisfactory interpersonal relationships with peers and teachers; inappropriate types of behavior or feelings under normal circumstances; a general pervasive mood of unhappiness or depression; or a tendency to develop physical symptoms or fears associated with personal or school problems. The term includes children who are schizophrenic.
- Orthopedically impaired—a severe orthopedic impairment which adversely affects a child's educational performance. The term includes impairments caused by congenital anomaly (e.g., clubfoot, absence of some member, etc.), impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns which cause contractures).

- Other health impaired—limited strength, vitality, or alertness, due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, autism, or diabetes, which adversely affects a child's educational performance.
- Specific learning disability—a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations. The term includes such conditions as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term does not include children who have learning problems which are primarily the result of visual, hearing, or motor handicaps, of mental retardation, or of environmental, cultural or economic disadvantage.
- Deaf-blind—concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for deaf or blind children.
- Multihandicapped—concomitant impairments (such as mentally retarded-blind, mentally retarded-orthopedically impaired, etc.), the combination of which causes such severe educational problems that they cannot be accommodated in special education programs solely for one of the impairments. The term does not include deaf-blind children. For the purposes of this report, this category should include those pupils who are severely or profoundly mentally retarded.

SPECIAL EDUCATION PROGRAMS Special education programs are those designed to meet the needs of children with one or more of the handicapping conditions above.

INSTRUCTIONS FOR QUESTIONS ON ED102

Questions 1 through 3. Self-explanatory.

Question 4. GRADES OFFERED. In the boxes provided, check all grades offered in this school. Please note. The first box is to be checked by schools that offer *only* special education classes.

Question 5. PUPIL STATISTICS. Complete the chart for racial and ethnic categories and, where indicated, for males and females. Refer to the definitions above of racial and ethnic categories. Leave no blanks; where the answer is none, enter "0".

- Pupils in Membership.** The total number of pupils in membership on or about October 1, 1984, for each racial and ethnic category and for males and females. In each box report total membership—not percentages, average daily attendance, average daily membership, or year-end enrollment. Count each pupil as one, including any who attend less than a full day, such as kindergarteners.
- Pupils in Need of Language Assistance Programs.** Enter in b(1) the number of national origin minority pupils who are so limited in their English proficiency that they cannot effectively or equally participate in the school's regular instruction program. Enter in b(2) the number of pupils reported in b(1) who are enrolled in a program of language assistance (i.e., English-as-a-Second-Language, High Intensity Language Training, or a bilingual education program). Do not count pupils enrolled in a class to learn a language other than English.
- Pupils in Programs for the Gifted or Talented.** The number of pupils enrolled in programs for the gifted or talented. Count pupils once regardless of the number of programs in which they are enrolled.
- Pupils Who Received Corporal Punishment.** The number of pupils who received corporal punishment during the 1983-84 school year. Corporal punishment is the infliction of physical punishment to the body of a student by a school employee for disciplinary reasons. Count pupils once regardless of the number of times they were punished.
- Pupils Suspended.** The number of pupils who were suspended from this school for at least one day during the 1983-84 school year. Suspension is the temporary exclusion of a student from school for disciplinary reasons for one full school day or longer. Count pupils once regardless of the number of times they were suspended.

Question 6. PUPIL ASSIGNMENT. This question is to be completed by all schools that offer any two elementary grades between and including one through six. Select the lowest of those grades that your school offers and the highest. Do not include kindergarten. For example, if your school offers K-12, select grades one and six for the chart. If your school offers 1-5, select grades one and five.

Question 7. SPECIAL EDUCATION PROGRAMS. Please read the definitions of the handicapping conditions on the first page of this instruction sheet. Do not complete darkened areas.

- Count pupils participating in special education programs operated at this school only. Include those pupils who receive special education services in their regular classrooms as well as those who receive such services in special classrooms.
- If any child participates in two or more programs, include him or her in the one program in which he or she spends the most time. Example: John Doe spends 10 hours per week in a program for the educable mentally retarded and 6 hours per week in a program for the orthopedically impaired; he would be reported in line (a) for the educable mentally retarded, since he spends most of his time in that program.
- In column 1, enter in each row the total number of pupils participating in each program, for rows a through i. In row m, enter the total of rows a through i.
- In column 2 through 6, enter the number of pupils in each racial/ethnic category in rows a, b, e, g, and j (racial/ethnic data is not needed for the other rows). For each row in which data must be entered, the entries in columns 2 through 6 must sum to the entry in column 1.
- In columns 7 and 8, enter the number of male and female pupils in the special education programs defined in rows a, b, e, g, and j. For each of these programs, the sum of columns 7 and 8 must equal the entry in column 1.
- In column 9, enter for the programs defined in rows a, b, e, g, and j, the number of pupils who have also been identified in item Sb(1) as "limited in English proficiency. Any such pupils will already have been counted in columns 2 through 8.
- In columns 10 and 11, enter the number of students who spend only a portion of the day in special education in column 10 and those who spend a full school day in special education in column 11. The sum of columns 10 and 11, for each row, must equal the total in column 1.

Question 8. SELECTED COURSE ENROLLMENT. Complete the chart for pupils enrolled in all-male classes, all-female classes, and for males and females in mixed classes in (a) home economics, (b) industrial arts, and (c) physical education.

- Enter the number enrolled in grades 7 through 9. For example, if this school serves grades 6-7-8, include only those pupils in grades 7 and 8. In (a), include occupational home economics.

Question 9. HIGH SCHOOL GRADUATES. Complete the chart for those who received a regular high school diploma during the 1983-84 school year. A high school diploma, for purposes of this question, is a diploma granted upon the successful completion of a prescribed secondary program of studies. This includes, where required as a prerequisite, the successful completion of a minimum competency test.

*This question is not to be answered by elementary schools, middle schools, or junior high schools.

*Do not include those who received other than a high school diploma, such as those who received a special diploma, a certificate of attendance, or a certificate of completion.

check the completeness and accuracy of each item reported. Errors or omissions may require a refile of this form.

SECTION I—TO BE COMPLETED BY ALL SCHOOLS

1. SCHOOL SYSTEM NAME _____			
2. SCHOOL NAME _____			
3. SCHOOL ADDRESS _____			
<small>Street or P.O. Box</small>			
<small>City/Town/Village</small>	<small>County</small>	<small>State</small>	<small>Zip</small>

SPACE FOR LABEL

4. GRADES OFFERED

- If this school is totally ungraded, check here ☐
- If this school offers only special education, check here ☐
- In the boxes below, check all other the grades offered:

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Pre-K	K	1	2	3	4	5	6	7	8	9	10

5. PUPIL STATISTICS Before you begin, please review the definitions and instructions on the instruction sheet of this form.

Columns 1 through 5 must equal column 6

Columns 7 and 8 must equal column 6

1	2	3	4	5	6	7	8
AMERICAN INDIAN OR ALASKAN NATIVE	ASIAN OR PACIFIC ISLANDER	HISPANIC	Not of Hispanic Origin		TOTAL	Total MALE	Total FEMALE
			BLACK	WHITE			

a Pupils in Membership							
b(1) Pupils in Need of Language Assistance Programs							
b(2) Pupils Enrolled in Language Assistance Programs							
c Pupils in Programs for the Gifted or Talented							
d Pupils Who Received Corporal Punishment							
e Pupils Suspended							

6. PUPIL ASSIGNMENT Consult the instruction sheet for instructions. This table is to be completed for all elementary entry- and exit-level classrooms in schools that offer any of the grades one through six, inclusive. Kindergarten is NOT to be included. Complete the table for classrooms in the lowest grade and in the highest grade of those to be counted (grades three and six if this school offers grades three through eight).

If two grades are combined in one classroom, count only those students in the entry- or exit-level class. Place the number of students in each racial/ethnic category in the proper column. For additional classes, duplicate chart on separate paper and continue. Be sure to make three carbon (or other) copies of extra pages and attach to the returned forms as appropriate.

1	2	3	4	5	6	7
Teacher's Initials or ID Number	Grade	AMERICAN INDIAN OR ALASKAN NATIVE	ASIAN OR PACIFIC ISLANDER	HISPANIC	Not of Hispanic Origin	
					BLACK	WHITE
